SABA EXPORTS

A Govt. Recognized Manufacturing & Export House

www.groupsaba.com

Company Profile

SIn the year 1990 we started operations in the city of Kanpur with the name SABA INTERNATIONAL to Produce & Market Finished Leather for the domestic Shoe Industry. In a very short time company made its mark in domestic Market as a reliable quality Finished leather Manufacturer & supplier. The company were growing as each day passed and In 2002 company build A New tannery and started exporting its Finished leather to the far East Market with the name SABA EXPORTS, and in next few years the company took shape of a well-recognized Manufacturing & Export house catering the demand of Global leather Industry. With the time, The company diversified its business in many other areas and established itself as one of the most reputed company, involved into Production & Exports of Finished Leather, Safety Footwear, Safety Uppers and Leather Accessories.

We have fully integrated manufacturing process “from Raw Hides to Finished Products” meets the International & BIS standards. All the Raw materials & components are tested in our in-house laboratory to maintain the highest quality parameter. A perfect blend of highly technical, skilled and semi-skilled work force along with the 2nd generation of proficient owners helped us to achieve a gratifying position for SABA EXPORTS in the world market.

Our dedication to Environments & quality is reaffirmed by our LWG GOLD CERTIFIED TANNERY , ISO & SA Certified factories. Our factories “4 Leather Tannery, One Footwear Factory, One Shoe Uppers Factory and One leather Accessories Factory” are fully equipped with the latest Machineries. Being equipped with requisite infrastructure and strict adherence to high standards of production parameter, help us to produce finest quality Products with large volume.

Safety Footwear

We are specialized in production of quality Protective & Occupational Footwear which are designed to be effective in a range of conditions from Normal to Extreme work environments, offering ultimate comfort with safety. Based on the needs of our clients, we offer safety footwear that is may have toe caps, reinforced soles, water resistant full grain leather etc. to ensure comprehensive protection. **Range** : Men & Women.

LEATHER

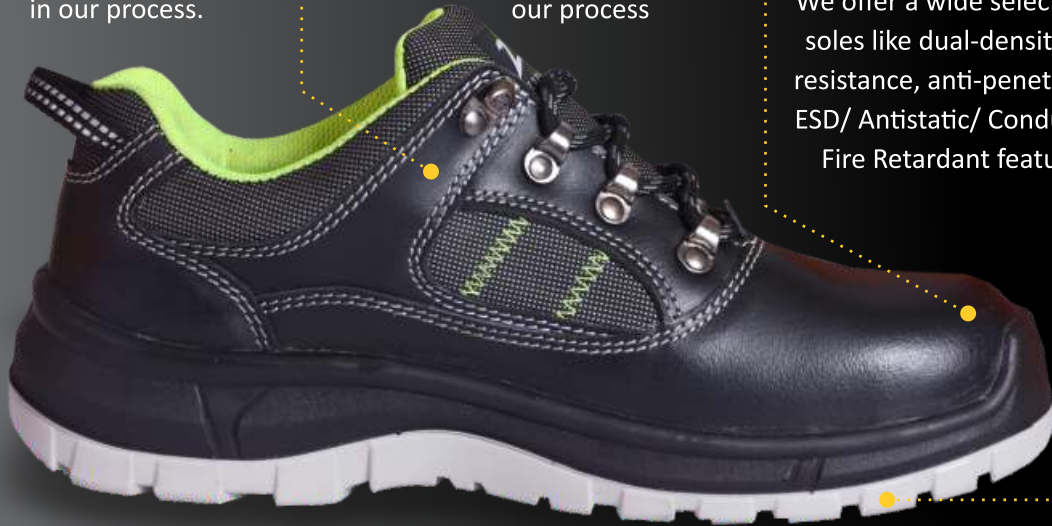

Real Leather with Breathability and vapor permeability involved in our process.

TOE CAP

Protective toe cap like steel, fiberglass, and composite involved in our process

SOLE

We offer a wide selection of soles like dual-density, slip resistance, anti-penetration, ESD/ Antistatic/ Conductive, Fire Retardant features.

SPECIFICATION – S1 – S1P – S3 SRC – ESD
